April 2010 California Personal Income Tax Daily Revenue Tracker

Estimated Personal Income Tax Revenues for the Month of April 2010

Personal income taxes for the 2008-09 fiscal year comprised 51.31% of all State General Fund revenues. Of those receipts, 16.79% arrived during the month of April.

Because these receipts are so important to the State's fiscal situation, State Controller John Chiang provides a daily tally of this month's personal income tax revenues as compiled and reconciled by the State Controller's Office. Year-to-date figures for April 2010 and April 2009 are included for year-over-year comparison.

The Governor's latest budget estimate projected personal income tax receipts would total \$10.2 billion in April.

Preliminary Report of California State Personal Income Tax Revenues - Month of April 2010 (In Thousands of Dollars)*

Date	Daily Personal Income Taxes (Receipts And Withholding Minus Refunds)	Fiscal 2010 Year-To-Date Personal Income Tax Revenues	Fiscal 2009 Year-To-Date Personal Income Tax Revenues
