Podcast Blog: Create a podcast for this user's weblog

iTunes Category:

You can change the theme of your blog here.

Do not change the Comments settings.

If you want users to be able to subscribe to your blog using iTunes, check this box. *(It does not send it to iTunes Music Store.)*

Select your theme from the list in the window.

You can use the default image or upload an image from your computer.

***Be sure to click save on the top right when you are finished.**
